

# LOOKING UP AT COLCHESTER

Colchester's visible architectural heritage covers 2,000 years - from the first century to the twenty-first. You may think you are familiar with the city centre, but above street level is a wealth of interest. Architectural detail and artworks are often missed as residents and visitors go about their business. This small selection of images will give you a taste of the many things to look out for. For locations and the stories behind them, check out the Colchester Civic Society website - <https://www.colchestercivicsociety.co.uk/> . The QR code will also take you there -
